2. What information do we collect or use in the app?

2.1 Calendar Access

Access to the device calendar is required to use the app.

When you use the app, you must allow the access to the device calendar. The app reads all calendar data to display it. Calendar data is not stored in the App. If you close the app, the data is not available in the app.

Data is written to the calendar when you enable and use Ad Hoc events. The feature requires to keep a list of the last 100 events. The list is saved in the App. One event has a title, a start date and an end date and the information if it was removed. The data is stored on your device even after closing the app. The data is protected by your device configuration. There is no additional encryption implemented for this list. The data is necessary to give the user immediately feedback as there might be a delay when reading data back from the device calendar.

2.2 Auto Renewable Subscription

Apple's auto renewable subscription mechanism is used in the app (see also https://www.apple.com/legal/privacy/). In order to renew the subscription it is necessary to send the encrypted transaction receipt to our servers. Our servers will then send it to Apples server. Apple responds with an updated transaction receipt. This receipt is send back to the app. The app uses the updated subscription duration for the state of the subscription. The transaction receipt is not saved on our servers.

The following data is necessary to communicate with our servers:
• IP address of device
• Date and time of access
• Device operating system and app version
These information is save temporarily in log files.

The above data is used for the following reasons:
• Connection establishment
• Renewal of subscription
• Evaluation and analysis of system security
• Other administrative usage

2.3 Configuration of App

All changes within the app about your design und functions must be saved on the device. The data is protected by your device configuration. There is no additional encryption implemented for this data. If you load a font to the app, it is also saved, regardless if it is used.

3. Your Consent

By using the app, you consent to our privacy policy

4. State and Changes of the Privacy Policy

If we decide to change our privacy policy, we will post those changes on this page https://ipad-conference-room-booking-display.com/privacy

The policy was last modified on 31/08/2018
